

FIVE REASONS TO UPGRADE YOUR CURRENT HANDHELD

1

+

=

Save **POWER**

Save **TIME**

Save **MONEY**

NONSTOP PERFORMANCE

When the job needs to be done, the product must perform. With Qi-certified, contactless charging, your customers can continue working while the Gryphon 4500 is charging—keeping everyone happy.

2

REDUCED MAINTENANCE COSTS

The power is in your hands. By eliminating the time spent on cleaning and the frustration caused by corroded contacts, your customers can spend their valuable time doing what they need to do: getting the scanning done.

Save **THE HASSLE**

3

WIRELESS CHARGING

It's pretty simple: The Gryphon 4500 wireless charging capabilities are some of the first of their kind—keeping your customer on the job and you ahead of the competition.

Focus on **EASE**

Focus on what the **INDUSTRY NEEDS**

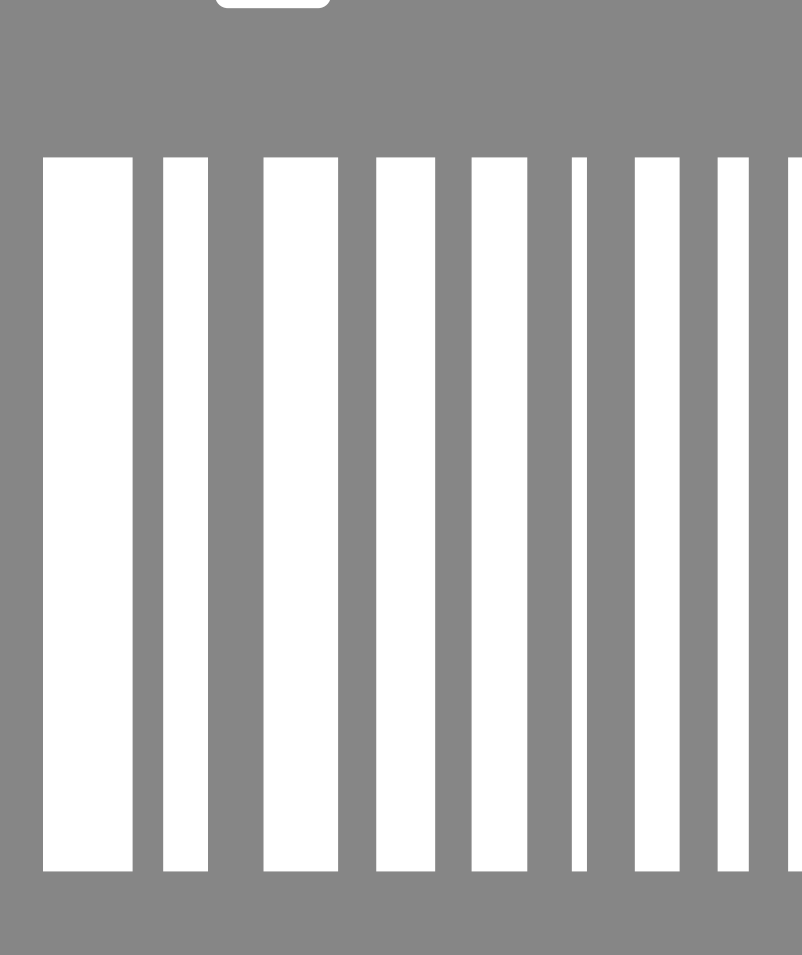

4

BUILT FOR YOUR BUSINESS

Does your customer work in healthcare? No problem. The Gryphon 4500 is available in a model that features disinfectant-ready and antimicrobial enclosures for the healthcare industry. So many great features for all of your varied customers.

MULTI-PURPOSE

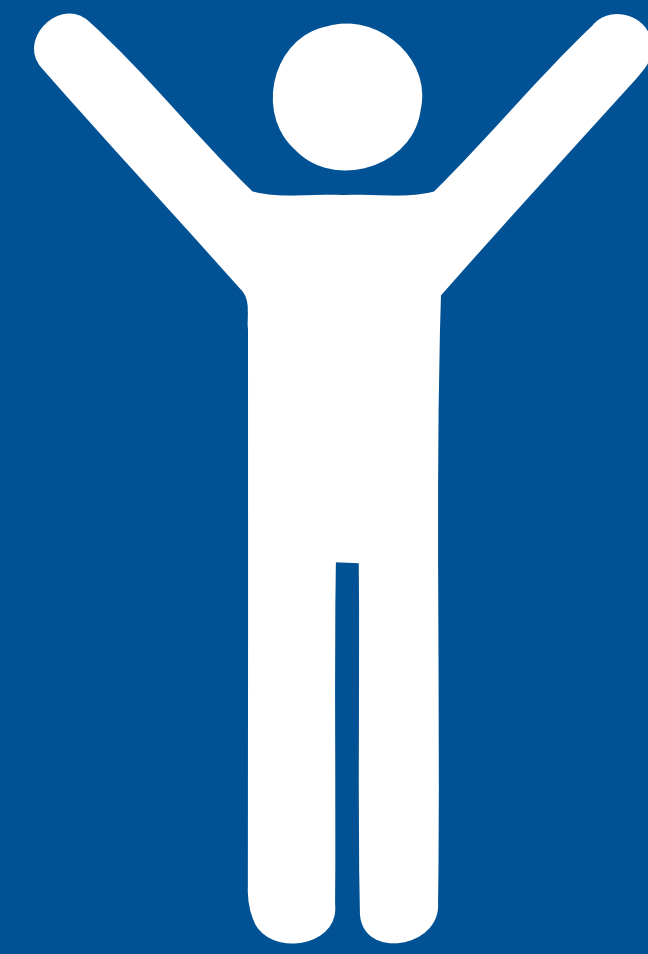

FOR ONE PURPOSE

5

LOWERS TOTAL COST OF OWNERSHIP

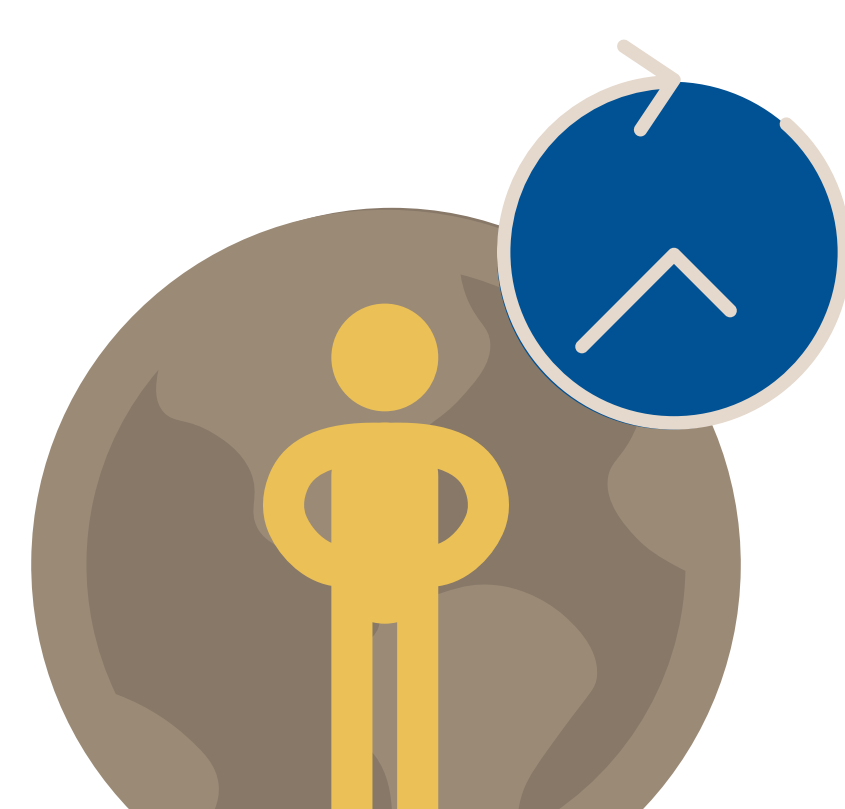

Because of the innovative features that eliminate common problems in handheld scanners, you'll notice working with the Gryphon 4500 saves money again and again.

Always keep **SAVING**

80,000 reads per charge

80 HOURS of continuous operation

THE STATS DON'T LIE

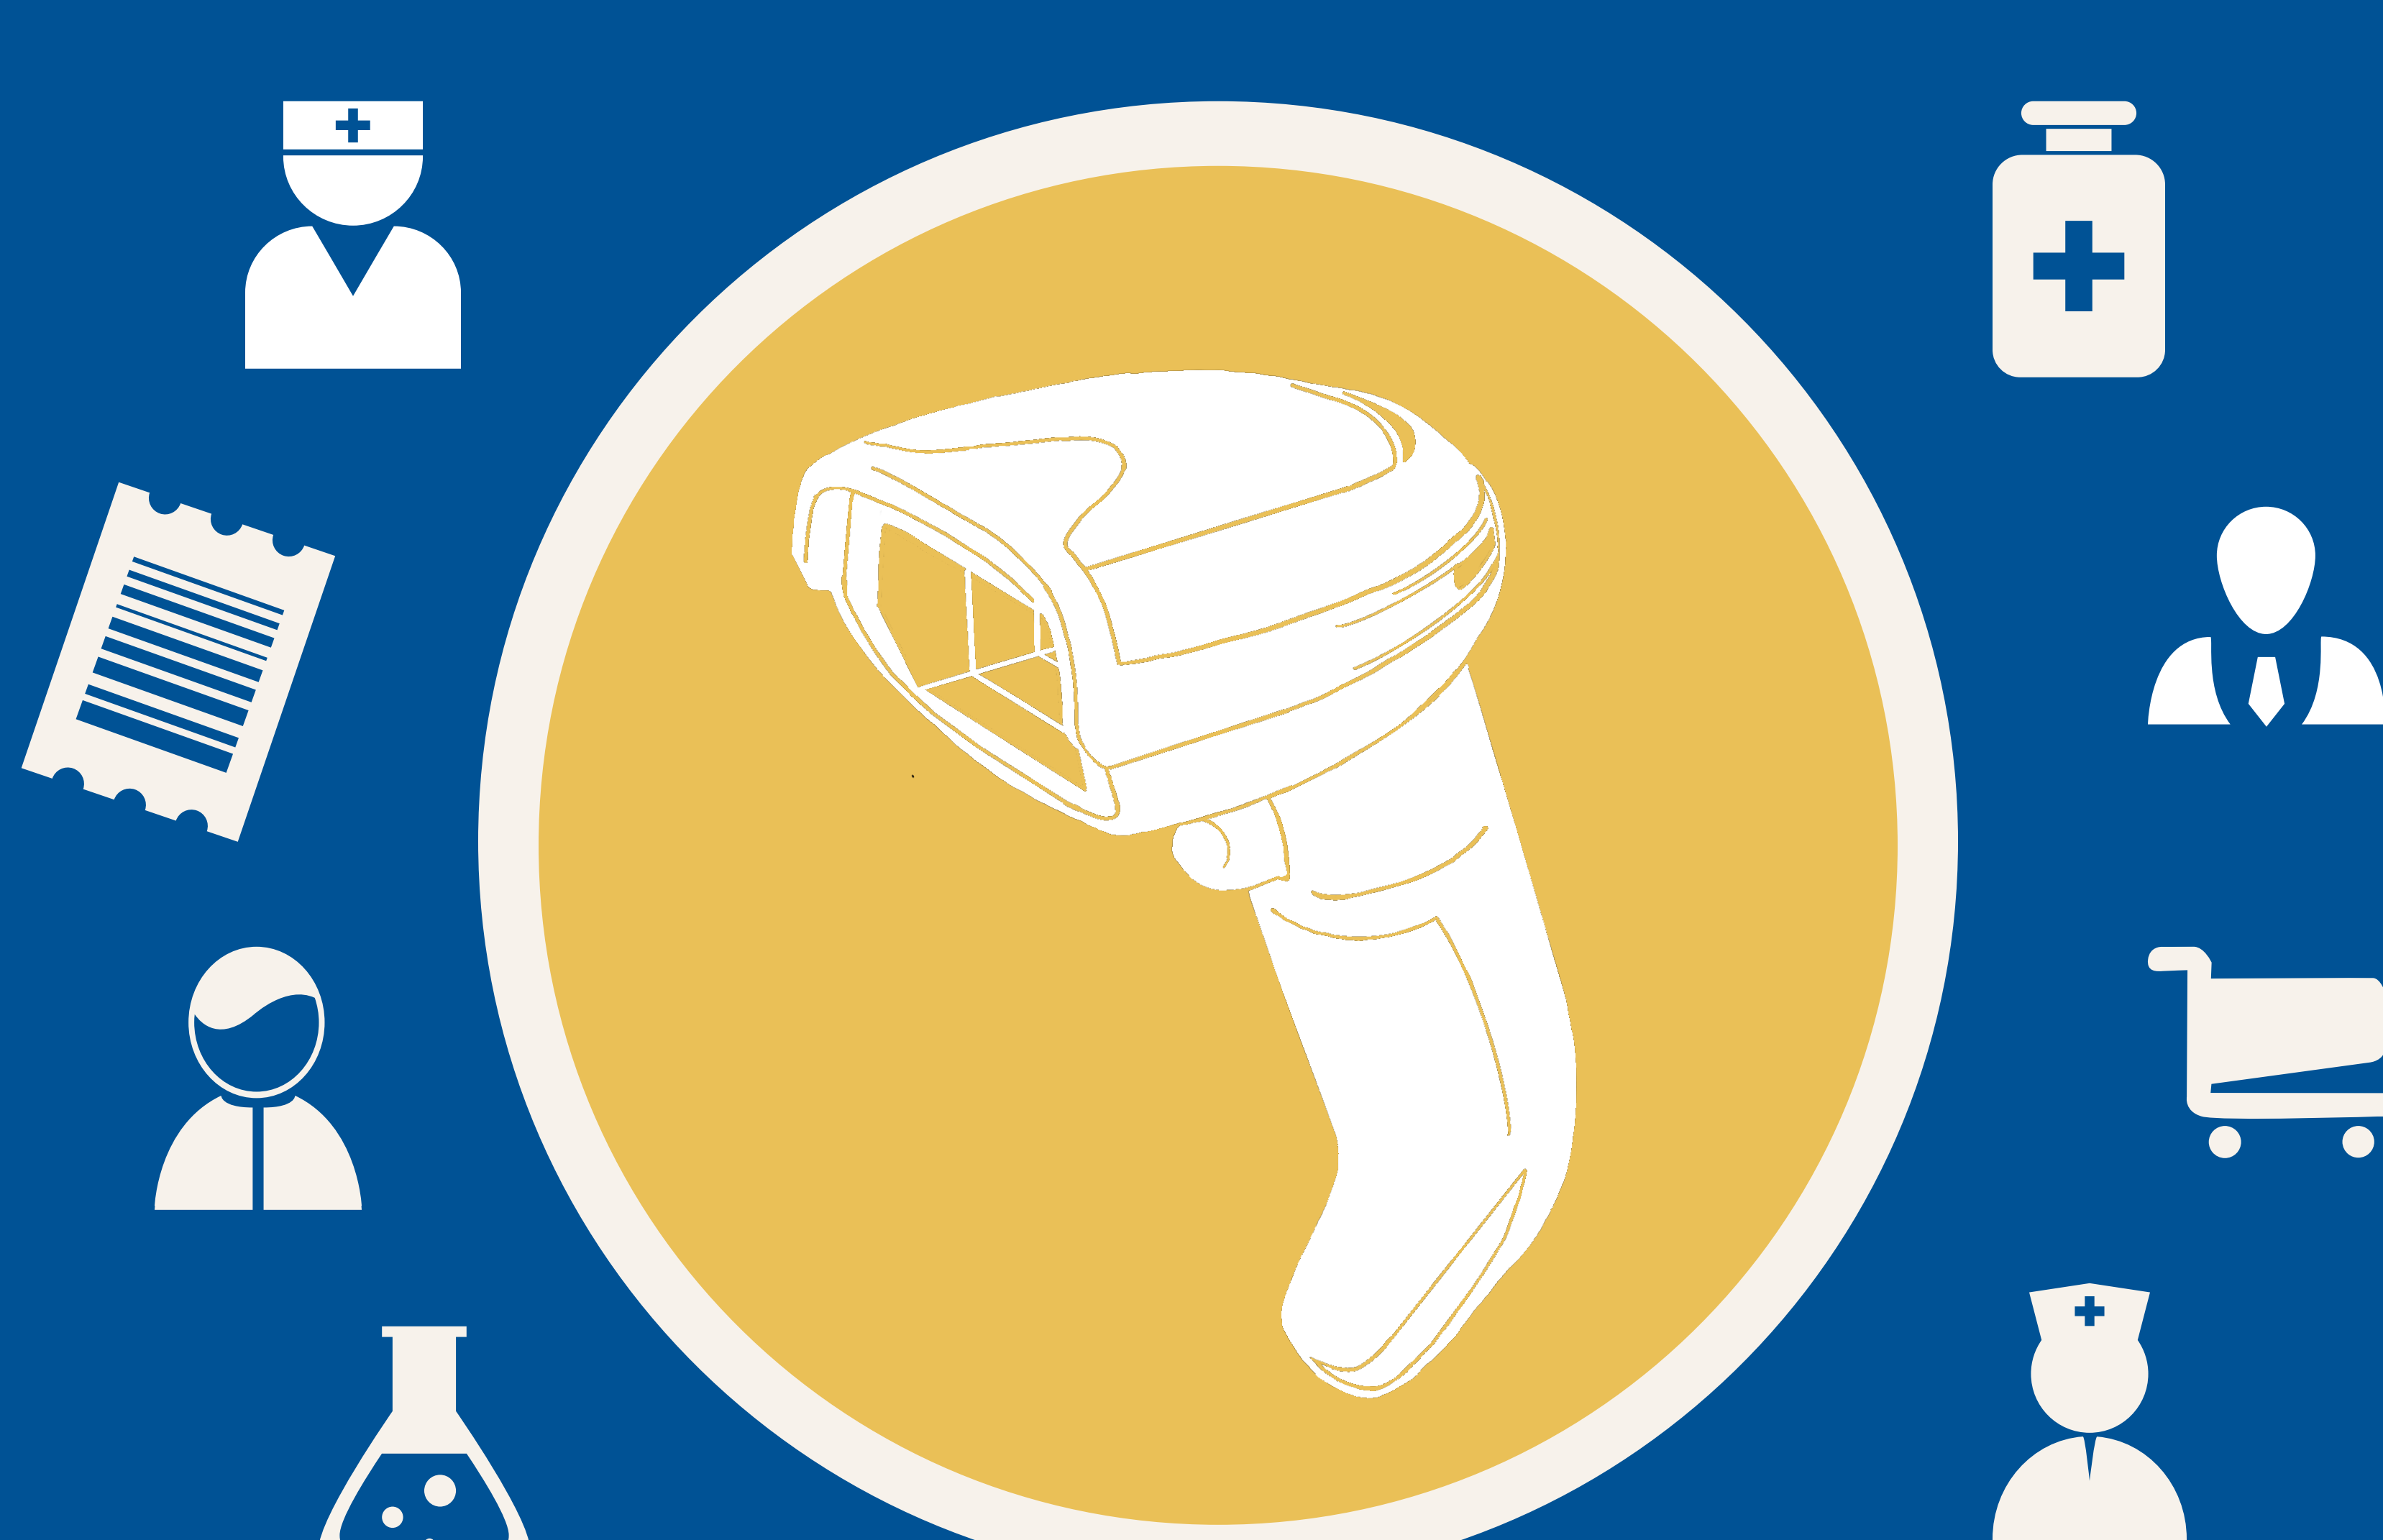

When we say that the Gryphon 4500 saves you time and money, we've got the numbers to show exactly what we mean.

A CLOSER LOOK AT THE SAVINGS

The number one cause of failure in cordless scanners in the field is the contacts, so with the contactless charging system...do the math. The savings can be substantial.
